Number 3

CLINKERS AND SPARKS

The official Organ of the East Bay Model Engineers Society, Incorporated. Oakland, California. Published monthly. Subscription price \$3.00 per year.

EDITOR: Peter M. Dean
52 Page St., Apt. 2
San Francisco 2, Calif.

SECRETARY REPORTS

. As custodian of the membership list, your secretary reports the following roster of members in good standing. There does not seem to be much work attached to making up a list of members, but there is. We recall Doc. Scudder and Charlie and Porky in recurring huddles, last October. Now the same thing has happened again. There are several names missing from the roster this time, and there are fewer names listed than last October, which makes us consider, are we doing right by our new members? Are the new members being referred to their respective trainmasters, if they do not seem to have an assignment. If a man does not have an active interest in some layout work, he does not have anything to tie him to the club activity. It is up to both old and new members to see that probationary members are assimilated into the life of the layouts. Perhaps these works might apply to some of our older members who have gotten away from the swing of things. There is always room for one more hand on many parts of our display. See your trainmaster, or the Chief Electrician or the Building Superintendent. They have jobs that have to be done before the September Show.

To you new members, let us say, that you
(continued above)

will have more fun, learn more, and accomplish more for yourself and the club by getting into one or another of the many activities of the club. There is more to be gained by active participation on one of the layouts than elsewhere. If you would angle one of the several spots that are available, find out who has charge of it and talk to him about the job, try your hand at it. Maybe he will decide to fill the job, with you. Learn the cabs, not only how to turn them on and off, but also block limits, how to make reasonable stops and starts. See if you can keep the coffee pot on the caboose stove instead of spilling it all over the floor. Remember your train probably has an engine that will travel two hundred miles per hour, but MUST you push it at that speed? There are many things that have not been completed on our layouts. Time and money and workers have been short. But you can help by making every construction move one more step toward our dream of a Model Railroad.

Yours for more and better Modeling.
s/ Joseph Leger, Secretary, 1953

DRIPPINGS FROM THE JOURNAL BOX

Two former members have been seen around the club lately, Fred T. Jones and Bruce Cryderman. Jones, like others who separated from the club before the present constitution was adopted, took advantage of returning to Senior membership without having to serve again a student membership. We welcome back a good modeler and a hard worker.

OFFICERS for Calendar Year, 1953

President	Chas. McDonagh
Vice-President	E. B. (Johnny) Johnson
Secretary	Joseph Leger
Treasurer	W. C. (Porky) Andrews
Chief Electrician	Ray Kelsoe
Editor	Peter Dean
Building Superintendent	Walter (Jim) Yohanan
O Trainmaster	Frank Coates
OTr Trainmaster	Paul Icanberry
On3 Trainmaster	Cliff Grandt
HO Trainmaster	Bob Riddell
HOTr Trainmaster	Joe Leger

HONORARY, LIFE, CHARTER, MILITARY LEAVE MEMBERS, & FORMER OFFICERS
